Sergot JACOB has been up to recently a consultant and associate researcher in economics and development. He co-founded the independent firm Gecades SA established in Port au Prince since 2003 and acted therein until 2011 as the Chief Consultant and CEO. He has contributed over the last ten years to development efforts made by a large range of international institutions (USAID, UNESCO, Inter-American Development Bank, UNICEF ...), public and private entities, and other co-operation projects in Haiti. He holds a PhD in economics (from a joint Cerdi-Cnrs & Ceregmia program, France), a MA in Management and Development Evaluation (from the University of Antwerp, Belgium). His main areas of research and work are focused on micro-economics of development, efficiency measurement and analysis, Data Envelopment Analysis, programs and project management and evaluation, and applied modelling and econometrics. He has several years of strong related experience. He published at Publibook Paris (2009) « *Pourquoi des Agriculteurs Rationnels sont-ils Inefficients ? Capital Humain, Efficience Productive et Stratégies Paysannes en Haïti* ». He published as well policy reports for the Education in Haiti. He is also an associate Lecturer of Economics, Program management and Evaluation at the University of Quisqueya's (Haiti) and at the French University of the West Indies post-graduate programs. He has been serving since 2006 as an economist planner and senior economic advisor to diverse Ministers. He is serving now as the main economic advisor and strategic planner to the Minister of Education, His Excellency Mr Vanneur Pierre.

6 SUMMARY OF RELEVANT PROFESSIONAL WORK EXPERIENCE

2010-2012 Main economic advisor at the Haiti Education National Task Force commissioned to design the Operational Plan 2010-2015 drawn up to reconstruct the educational system severely devastated by the 2010 earthquake.

2010-2011 (9 months)

Economist Consultant for UNICEF in charge of supporting the Haitian Ministry of Education and Vocational Training in re-opening schools and creating the new vision for the reconstruction of the education system after the massive 7.3-magnitude earthquake that hit the West, South East and Nippes regions (March-May 2010).

A second contract (July-September) allowed me to participate in designing the 2011-2015 Education Master Plan as the main Economist. A third contract (November 2010-January 2011) was primarily focused on finalizing the Education Operation Plan; analyzing the conditions under which an active Public-Private Partnership could be set up in offering better education services; developing the guidelines for operationalizing the *Institut National d’Études et de Recherche en Éducation*; and analyzing the contribution of Unicef in to the education system after the earthquake.

2008-2009 Economist Consultant for the InterAmerican Development Bank supporting Economic Governance in the Education Sector and acting as the main Economic Advisor to the Minister of Education and Vocational Training; Port-au-Prince.

2003-- Head and lead consultant for the independent consulting firm Gecades SA; Port-au-Prince :

1. Leading the evaluation team.
2. Modelling qualitative and quantitative data.
3. Identifying business opportunities.
4. Designing projects and business plan.

2006-2007 Economist consultant for UNESCO within the national team preparing the National Strategy of Education for All and the first Education project For All ¹:

1. Adapt the World Bank “Costing Model” developed for the Fast Track Initiative to the Haitian educational context.
2. Establish the costs of the National Strategy of Action-Education For All (SNA-EPT) for Haiti from 2007 to 2015.
3. Establish the costs of the first project for implementing the EPT founded by the World Bank and The Caribbean Development Bank.

¹ This mandate took place with various invited public lectures for the private business sector, the community of international donors (on March 1, 2007), the Haitian Government (on April 13, 2007), the Franco-Haitian Chamber of Commerce and Industry of Haiti (on May 15, 2007) and the participants in the National Forum of May 22, 2007 on the topic “Measuring the costs of the National Strategy of Education For All”.

- 2005-2006 Economist Planner consultant for USAID in support of the Coordination of the ICF (Interim Framework of Co-operation) and the Sectoral Table Education:
1. Support the management process of the Interim Cooperation Framework in the Education sector .
 2. Strengthen the “Table Sectorielle Éducation, Jeunesse, Sports et Services Civiques”.
- 2005-2007 Co-ordinator of the Master program in Project Management and Research; University of Quisqueya, Haiti:
1. Coordinated the sessions in conformity with the academic agenda.
 2. Assisted students in the preparation of their Master theses.
 3. Supervised the instructors and administrative personnel.
 4. Conducted socio-economic research at the Centre de Recherche en Économie et Gestion du Développement.
- 2004-2005 Co-ordinator of the midterm program in Management Sciences and the License program of tourism management at Quisqueya University.
1. Coordinated the sessions in conformity with the academic agenda.
 2. Supervised the instructors and administrative personnel.
 3. Conducted socio-economic research at the Centre de Recherche en Économie et Gestion du Développement.
- 2003 Supervisor of the final essay program, Faculty of Management Sciences and Accounting, Université Caraïbe, Delmas, Haiti.
1. Helped undergraduate students in writing final papers, choosing a range of appropriate methodologies.
 2. Monitored and assessed the research activities of the students.
- 2002–2003 Programs and Projects co-ordinator for the NGO Alliance pour la survie et le développement de l’Enfant (a public-private alliance of national and international institutions created under the initiative of the United Nations Children Emergency Fund, UNICEF, in 1988), Haiti:
1. Identified and designed development project to address the basic needs of health and to promote access to sustainable livelihoods and credit in poor communities in Haiti.
 2. Managed, monitored and assessed the projects of social mobilization, preventing STD/AIDS, strengthening women and community empowerment, BCC.
 3. Participated in the arrangements for financing the projects.
 4. Managed all the phases of the project cycle and wrote the reports for the financiers.
 5. Developed new approaches to work with the poor rural communities in Haiti.
 6. Prepared the project reports and other documentation support for the project implementation for achievement and measurement of impact.
 7. Recruited consultants for specific assignments.
- 2002 – 2003 Program coordinator at the Centre Universitaire Maurice Laroche, Port-au-Prince, Haïti.
1. Responsible for the management of the different BSc. programs (Project Management, NGO Management, Finance, Business Administration, Accounting Sciences).
 2. Responsible for the academic and administrative monitoring of teaching activities.
 3. Identified and submitted to the director the teachers selected for each session.
 4. Evaluated the teaching sessions.
- 1999 Engineer agro-economist of the Haitian Ministry of Agriculture affected to the Institutional Support & Training Project (Haitian-French Cooperation), (PAIFC).

1. Provided technical assistance in the research activities focused on analyzing the grassroots organization movement.
2. Assessed the management system of the agricultural inputs stores and proposed a training package for the managers.
3. Assisted the person responsible for the producer organization component of the project in planning, managing and monitoring the project activities in the field.

1998-1999 Academic Advisor; Institut Technologique d'Agriculture et d'Horticulture Tropicales. Port-au-Prince

7 ACADEMIC POSITIONS

2011 to 2012 Senior Lecturer, Tourism Project Management, French University of the West Indies.

2007 to 2011 Lecturer of Managerial Economics, and project economics analysis, Institut Régional Aimé Césaire (Port au Prince and Fort de France, University of the French West Indies)

2005 to 2012 Senior Lecturer of (1) Cost Effectiveness Analysis and (2) Project Management at Quisqueya University (Haiti) in collaboration with Cornell University (USA); Master Program in Public Health.

2003-2006 Lecturer of Managerial Economics and Projects Evaluation. Master program in Projects Management, Quisqueya University:
(Helped the students to apply the theoretical tools of economics in decision sciences in order to improve managerial effectiveness. Illustrated the problems that the applied economics analysis could help to solve. Familiarized the participants with the decision-making process and business forecasting techniques. Developed the conceptual aspects and enhanced the capacity of participants to analyze and make rational choices).

2001-2005 Lecturer of Applied Economics, Applied Statistics, and Project Evaluation at the Centre Universitaire Maurice Laroche.

2001— 2002 Academic Advisor for the Maurice Laroche University Center.
(Provided academic advice to the Director of the program. Oversaw the academic staff in their majors responsibilities).
